About this Publication:

Environmental Laws of South Africa is a collection of the laws that govern the environment from a disparate and diverse range of legislative sources. Commentary places the legislation in context, bulletins sum up recent initiatives in all areas of environmental legislation and the text of relevant selected acts, regulations and policies are included. It also contains useful tables of regulations and appendices.

Contents Include:

- Environmental law and the constitution
- The management, use and conservation of natural and cultural resources
- Land use, planning and development
- Protected areas
- Waste management and pollution control
- Provincial environmental laws
- Tables of local authorities
- Table of cases
- Table of international conventions that relate to the environment

Additional features - Online:

- Hyperlinks to footnotes, endnotes and cross-chapter referencing, and to referenced legislation and case law for subscribers to the relevant online publications
- Powerful electronic searching allows for easy and rapid access to information

Of Interest and Benefit to:

- Lawyers
Government and local authorities
- Industrial, mining and agricultural sectors
- Environmentalists
- Academics and students
- Libraries
