## About this Publication:

The purpose of the Co-operatives Act 14 of 2005 is to:

- promote the development of sustainable co-operatives, thereby increasing the number and variety of economic enterprises operating in the formal economy;
- encourage persons and groups who subscribe to values of self-reliance and self-help, and who choose to work together in democratically controlled enterprises, to register co-operatives;
- enable such co-operative enterprises to register and acquire a legal status separate from their members;
- promote equity and greater participation in the formation of, and management of, co-operatives by persons from previously disadvantaged communities;
- establish a legislative framework that preserves a co-operative as a distinct legal entity;
- facilitate the provision of support programmes that target newly formed and emerging co-operatives, particularly those whose members are persons from previously disadvantaged communities, and that promote equity and greater participation by such members;
- ensure the design and implementation of co-operative development support programmes and measures and compliance with uniform norms and standards that reflect fairness, equity, transparency, economy, efficiency, accountability and lawfulness;
- facilitate the effective co-ordination and reporting mechanism; and
- promote the establishment of public private partnerships.

The *Co-operatives Act 14 of 2005 & Regulations*, a new title in the *Juta's Pocket Statutes* series, reflects the law as at 05 July 2019.
